

Flight Attendant Training

World Class Training

Aviation Australia provides a gateway to an exciting and rewarding career in the growing international and domestic aviation industry. Graduates are exceptionally well prepared for employment with major Australian and international airlines.

Our fully accredited cabin crew course will suit driven individuals with a desire to embark on an exciting career as a member of a cabin crew team where they will travel, make new friends, provide excellent customer service and access a world of opportunities.

This internationally recognised course has been developed by cabin crew experts in conjunction with Australia's major airlines to provide students with the theoretical knowledge and real, hands-on skills needed to meet specific industry demands. Aviation Australia is utilised by all of Australia's major airlines and many international airlines as a training facility and source of future employees.

Our new, independent Cabin Crew Training Centre is located at the Brisbane International Airport. The purpose-built training facilities give students the opportunity to practice everyday cabin crew skills and emergency procedures. Real life scenarios are created using cabin simulators, a slide-descent concourse, a ditching pool for practicing water-based emergencies and a fully equipped fire-training cabin.

Our expert instructor team consists of cabin crew who have come from some of the world's leading airlines including Emirates, Qantas and Virgin Blue. These professionals have many years of invaluable experience to share through both theoretical and practical training to ensure graduates are ready for employment as part of a cabin crew team.

Living and Studying in Brisbane

Brisbane is a safe, vibrant, cosmopolitan city & the perfect place to live while you study towards your cabin crew career.

The city offers an affordable cost of living and many recreational facilities. The famous attractions of the Gold and Sunshine Coasts are all within a short distance.

Brisbane has a comprehensive public transport system, including easy access to Aviation Australia campus.

Accommodation (including homestays for international students) is reasonably priced and readily available.

Cabin Crew Qualification

Aviation Australia's cabin crew graduates are awarded an Australian national accreditation - Certificate II in Transport & Distribution Aviation Flight Operations (Cabin Crew), plus:

- Senior First Aid certificate
- Responsible Service of Alcohol certificate
- Customer Service Essentials certificate
- Dangerous Goods Certificate (Category "D") for Cabin Crew

Our level of practical training is far more extensive than any other course available in Australia. Modules include all of the standard core skills taught by the airlines in their initial training programs, plus a range of advanced proficiencies.

Subjects such as Airline Employment and Customer Service Essentials are designed to prepare graduates for employment and to provide an edge over other candidates in the interview process. This includes simulated airline interviews, professional grooming advice and developing a curriculum vitae.

The course is delivered in our world class facilities located at Brisbane International Airport by highly skilled instructors over a 10 week period (13 weeks for international students).

Course modules include:

- An Introduction to the Aviation Industry
- Occupational Health & Safety
- Human Factors
- Crew Resource Management
- Security
- Senior First Aid
- Aviation Medicine
- Airline Employment
- Customer Service Essentials
- Roles and Responsibilities
- Aircraft Systems and Components
- Safety Procedures
- Cabin and Galley Services, including Responsible Service of Alcohol
- Dangerous Goods
- Emergency Procedures and Equipment
- Evacuation Procedures

CRICOS Course Code 058113A

Course includes:

- Theoretical training
- Practical training
- All textbooks and workbooks
- All personal protective equipment
- All training consumables

Essential requirements for a Flight Attendant:

- Age - minimum 18 years for Australian domestic and 21 years for most international airlines
- Height restrictions may apply at some airlines
- Fit and healthy
- Punctual, reliable, hard working and enthusiastic
- Sensitive with people from a variety of cultures
- A second language is a distinct advantage with most international airlines

Requirements for all applicants:

- Successful completion of Senior High School or higher studies
- Must be at least 18 years old at the course start date
- Applicants should also meet the "essential requirements for a flight attendant" listed above
- Customer service experience would be an advantage

Additional Requirements for International students:

- English Level - IELTS 5.5 (no band below 5.0) or equivalent
- Must hold a visa that permits studying in Australia
- Must hold suitable health insurance

Please refer to our website or an approved international booking centre for further details and information about application, accommodation and English language training options.
